

NumberForm example

<p>1. create a number form page with an input field and a list paragraph and a status paragraph in the footer</p> <p>https://pages.cs.wisc.edu/~deppeler/cs400/html/listForm/NumberForm_1starterForm.html</p>	<hr/> <h2>Number Form</h2> <hr/> <p>Enter any positive integer: <input type="text"/></p> <hr/> <h3>List</h3> <hr/> <p>Status:</p>
<p>2. add javascript to ignore typed characters that are not positive integers, 0-9</p> <p>Update status if any such characters are typed in the integer field.</p> <p>https://pages.cs.wisc.edu/~deppeler/cs400/html/listForm/NumberForm_2setStatus.html</p>	<hr/> <h2>Number Form</h2> <hr/> <p>Enter any positive integer: <input type="text"/></p> <hr/> <h3>List</h3> <hr/> <p>Status: This field accepts numbers only.</p>
<p>3. add positive integers to the list of values. It should clear the input field when it adds value to the list.</p> <p>https://pages.cs.wisc.edu/~deppeler/cs400/html/listForm/NumberForm_3addToList.html</p>	<hr/> <h2>Number Form</h2> <hr/> <p>Enter any positive integer: <input type="text"/></p> <hr/> <h3>List</h3> <hr/> <p>123 4</p> <hr/> <p>Status: added 4 to list</p>

4. add button and code to clear the list

https://pages.cs.wisc.edu/~deppeler/cs400/html/listForm/NumberForm_4addClearForm..html

Number Form

Enter any positive integer:

List

123
234342
321

Clear List

Status: added 321 to list

5. add a sum label and code. Clear sum if list is cleared.

https://pages.cs.wisc.edu/~deppeler/cs400/html/listForm/NumberForm_5addSum..html

Number Form

Enter any positive integer:

List

123
4
321

Sum = 448

Clear List

Status: added 321 to list

6. add document css styles in the head section of the document

https://pages.cs.wisc.edu/~deppeler/cs400/html/listForm/NumberForm_6addStyles..html

Number Form

Enter any positive integer:

List

123
4
321
42

Sum = 490

Clear List

Status: added 42 to list
